

WIRE BINDING

Wire Binding

Produces professional looking documents by the addition of a wire binding element to one side, providing a strong and secure method of binding that also allows bound documents to be laid flat or folded back on themselves.

Our 2:1 system binds up to 32mm thickness (approx. 260 pages), while our 3:1 system binds up to 14mm thickness (approx. 120 pages).

WE ALSO SELL WIRE BINDING MACHINES AND SUPPLIES IF REQUIRED
